

## SAFETY DATA SHEET MAXIMUS M 5W30

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	MAXIMUS M 5W30	
1.2. Relevant identified uses o	f the substance or mixture and uses advised against	
Identified uses	Engine oil.	
Uses advised against	This product must not be used in applications other than those recommended in Section 1, without first seeking the advice of the supplier. This product is not to be used as a solvent or cleaning agent; for lighting or brightening fires; as a skin cleanser. This product is designed only to suit automotive applications and no provision is made for the requirements of aviation applications.	
1.3. Details of the supplier of the	he safety data sheet	
Contact person	Customer Services: madeniyag@petrolofisi.com.tr	
Manufacturer	PETROL OFİSİ A.Ş. Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar/ Istanbul Tel: +90 850 339 1919 Fax: +90 216 275 3854 madeniyag@petrolofisi.com.tr	
1.4. Emergency telephone nun	nber	
Emergency telephone	Madeni Yağ Customer Services: 0850 339 1919 (working hours)	
National emergency telephone number	Emergency Medical Services: 112 National Poison Consultance Center: 114	
SECTION 2: Hazards identifica	ation	
2.1. Classification of the substance or mixture		
Classification (EC 1272/2008)		
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Aquatic Chronic 3 - H412	
2.2. Label elements		
Hazard statements	H412 Harmful to aquatic life with long lasting effects.	
Precautionary statements	<ul> <li>P401 Store in accordance with national regulations.</li> <li>P262 Do not get in eyes, on skin, or on clothing.</li> <li>P270 Do not eat, drink or smoke when using this product.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</li> <li>P273 Avoid release to the environment.</li> <li>P501 Dispose of contents/ container in accordance with national regulations.</li> </ul>	

As supplied, the material does not present a health hazard.

SECTION 3: Composition/informat	ion on ingredients	
3.2. Mixtures		
Distillates (petroleum), hydrotreate	ed heavy paraffinic baseoil	25-409
CAS number: 64742-54-7	EC number: 265-157-1	REACH registration number: 01- 2119484627-25-0065
<b>Classification</b> Asp. Tox. 1 - H304		
1-Decene Homopolymer Hydroge	nated	25-40%
CAS number: 68037-01-4	EC number: 500-183-1	
Classification Not Classified		
Mineral oil (mixture)		10-20%
CAS number: —		
The mineral oil contained in this m 65-0, 6474255-8, and 64742-56-9		re of the following CAS No's.: 64742-54-7, 64742-
Classification Asp. Tox. 1 - H304		
Distillates (petroleum), hydrogena	ted heavy parafinic	10-20%
CAS number: —	EC number: 265-157-1	
<b>Classification</b> Asp. Tox. 1 - H304		
bis(nonylphenyl)amine		1-5%
CAS number: 36878-20-3	EC number: 253-249-4	
<b>Classification</b> Aquatic Chronic 4 - H413		
Butanedioic acid, 2,3-dihydroxy-, I C13-rich C11-14-isoalkyl diesters,	-	<19
CAS number: —	EC number: 482-100-8	
<b>Classification</b> Eye Dam. 1 - H318		

		<1
CAS number: —	EC number: 218-679-9	
Classification		
Skin Irrit. 2 - H315		
Eye Dam. 1 - H318		
Aquatic Chronic 2 - H411		
Mineral oil	<	<1'
CAS number: —		•
64742-65-0, 64742-55-8 and	this material may be identified by one or more of the following CAS Numbers: 64742-54-7, d 64742-56-9.	
Classification		
Asp. Tox. 1 - H304		
Phenol, dodecyl-, branched		<1'
CAS number: —	EC number: 310-154-3	
M factor (Acute) = 10	M factor (Chronic) = 10	_
Classification		
Skin Corr. 1C - H314		
Eye Dam. 1 - H318		
Repr. 1B - H360		
Aquatic Acute 1 - H400		
Aquatic Chronic 1 - H410		
2,6-di-tert-butyl-p-cresol	<	<19
CAS number: —	EC number: 204-881-4	
M factor (Acute) = 1	M factor (Chronic) = 1	
Classification		
Skin Irrit. 2 - H315		
Aquatic Acute 1 - H400		
Aquatic Chronic 1 - H410		
	tements is displayed in Section 16.	
Composition comments	The DMSO contents of some substances are classified by the manufacturer as <3% according to IP 346.	
SECTION 4: First aid measu	res	
I.1. Description of first aid m	easures	
General information	If in doubt, get medical attention promptly. First aid personnel should wear appropriate protective equipment during any rescue. Show this Safety Data Sheet to the medical personnel.	
nhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Never give anything by mouth to unconscious person. Do not induce vomiting. Get medical attention.	

Ingestion	If throat irritation or coughing persists, proceed as follows. Do not induce vomiting unless under the direction of medical personnel. Get medical attention if symptoms are severe or persist. Consult a physician for specific advice.
Skin contact	Get medical attention immediately. Brush off loose particles from skin. Remove contamination with soap and water or recognised skin cleansing agent. Take off immediately all contaminated clothing and wash it before reuse. Get medical attention if symptoms are severe or persist after washing.
Eye contact	Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention. Show this Safety Data Sheet to the medical personnel.
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.
4.2. Most important symptoms	and effects, both acute and delayed
General information	Treat symptomatically. See Section 11 for additional information on health hazards.
Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known.
Skin contact	No specific symptoms known.
Eye contact	No specific symptoms known.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
Specific treatments	No specific chemical antidote is known to be required after exposure to this product. Treat symptomatically.
SECTION 5: Firefighting measure	
	50165
5.1. Extinguishing media	
	Use alcohol-resistant foam, carbon dioxide or dry powder to extinguish. Water can be used to cool and protect exposed material.
5.1. Extinguishing media	Use alcohol-resistant foam, carbon dioxide or dry powder to extinguish. Water can be used to
5.1. Extinguishing media Suitable extinguishing media Unsuitable extinguishing	Use alcohol-resistant foam, carbon dioxide or dry powder to extinguish. Water can be used to cool and protect exposed material. Do not use water jet as an extinguisher, as this will spread the fire.
5.1. Extinguishing media Suitable extinguishing media Unsuitable extinguishing media	Use alcohol-resistant foam, carbon dioxide or dry powder to extinguish. Water can be used to cool and protect exposed material. Do not use water jet as an extinguisher, as this will spread the fire.
5.1. Extinguishing media Suitable extinguishing media Unsuitable extinguishing media 5.2. Special hazards arising from	Use alcohol-resistant foam, carbon dioxide or dry powder to extinguish. Water can be used to cool and protect exposed material. Do not use water jet as an extinguisher, as this will spread the fire. <b>om the substance or mixture</b> A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. See section 10 for additional information. Water may cause

Do not use water jet as an extinguisher, as this will spread the fire. <b>om the substance or mixture</b> A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. See section 10 for additional information. Water may cause splattering. Container may rupture on heating. Carbon dioxide (CO2). Carbon monoxide (CO). A complex mixture of airborne solids, liquids and gases can be released.

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. No action shall be taken without appropriate training or involving any personal risk. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material.
For non-emergency personnel	Necessary precautions should be taken to ensure that non-educated personnel do not intervene.
For emergency responders	Wear protective clothing as shown in section 8 of this safety data sheet. Notification: In case of spillage, notify the local authorities as appropriate or as necessary. Stop the leakage source if it can be done without risk.Limit spillage to prevent further contamination of soil, surface or ground water.Remove any spilled material as soon as possible by following the precautions in the section Exposure Controls / Personal Protection.Use suitable techniques such as non-flammable absorbent materials or pumping.When possible or appropriate, remove the contaminated soil from the area.Place contaminated products in disposable boxes and dispose of in accordance with regulations.If a heated material is spilled, allow it to cool before handling with disposal methods.
6.2. Environmental precautions	5
Environmental precautions	Contain spillage with sand, earth or other suitable non-combustible material. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).
6.3. Methods and material for c	containment and cleaning up
Methods for cleaning up	Small spill : Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Large spill : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water sources, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may be pose the same hazard as the spilled product.
6.4. Reference to other section	S
Reference to other sections	For personal protection, see Section 8. See Section 1 for emergency contact information. For waste disposal, see Section 13. See Section 7 for more information on safe handling. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards.
SECTION 7: Handling and stor	age
7.1. Precautions for safe handle	ing
Usage precautions	Take precautionary measures against static discharges. Wear protective clothing as described in Section 8 of this safety data sheet.
Advice on general occupational hygiene	Good personal hygiene procedures should be implemented. Avoid breathing vapors / mist. Do not eat, drink or smoke when using this product. Wash after use and before eating, smoking and using the toilet.
7.2. Conditions for safe storage	e, including any incompatibilities
Storage precautions	Store in a demarcated bunded area to prevent release to drains and/or watercourses. Store away from incompatible materials (see Section 10). Bund storage facilities to prevent soil and

7.3. Specific end use(s)

freezing and direct sunlight.

water pollution in the event of spillage. Keep only in the original container. Protect from

Specific end use(s)		The identified uses for this product are detailed in Section 1.2.		
		The product must be used as specified in the data sheet.		
SECTION 8: Exposure controls/Personal protection				
8.1. Control parameters Occupational exposure limits Distillates (petroleum), hydrotreated heavy paraffinic baseoil There is no available data.				
ve pro em gu		ventilatio protective employee guideline	oduct contains a component with exclusion limits,to determine the effectiveness of n and other control measures; and / or the necessity of the use of respiratory e devices, the working environment or biological measurement and monitoring of es may be required.The European Standard EN 689 and the relevant national s should be taken as reference for the detection methods for assessing exposure to n of chemicals of hazardous substances.	
Biological lin	nit values	No inform	nation available.	
DNEL		Information	on given is based on data of the components and of similar products.	
DMEL		Information	on given is based on data of the components and of similar products.	
PNEC		Information	on given is based on data of the components and of similar products.	
	D	istillates (	petroleum), hydrotreated heavy paraffinic baseoil (CAS: 64742-54-7)	
	Ingredient comme	nts	There is no available data.	
Biological limit values		ues	There is no available data.	
	DNEL		Workers - Inhalation; Long term systemic effects: 2,7 (8h) mg/m <sup>3</sup> Workers - Inhalation; Long term local effects: 5,4 (8h) mg/m <sup>3</sup> Consumer - Inhalation; Long term local effects: 1,2 (24h) mg/m <sup>3</sup> Consumer - Oral; Long term systemic effects: 0,74 (24h) mg/kg/day Workers - Dermal; Long term systemic effects: 1,0 (8h) mg/kg	
	DMEL		No information available.	
	PNEC		No information available.	
8.2. Exposur	e controls			
Protective ed	quipment			
Appropriate controls	As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapour or mist.			
Personal pro	tection		wing recommendations are made based on information available for the major component.	
Eye/face pro	tection	Wear che	emical splash goggles. Wear face protection.	
Hand protec	tion	Wear pro	tective gloves. Frequent changes are recommended.	

Other skin and body protection	Avoid contact with skin. Wear apron or protective clothing in case of contact.
Hygiene measures	Good personal hygiene procedures should be implemented. Wash contaminated skin thoroughly after handling. Remove contaminated clothing and protective equipment before entering eating areas. Eye wash facilities and emergency shower must be available when handling this product. Warn cleaning personnel of any hazardous properties of the product.
Respiratory protection	If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are unsuitable (e.g. airborne concentrations are high, risk of oxygen deficiency, confined space) use appropriate positive pressure breathing apparatus. Where airfiltering respirators are suitable, select an appropriate combination of mask and filter. All respiratory protection equipment and use must be in accordance with local regulations.
Thermal hazards	If there is a risk of contact with hot product, all protective equipment worn should be suitable for use with high temperatures.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Store in a demarcated bunded area to prevent release to drains and/or watercourses. Residues and empty containers should be taken care of as hazardous waste according to local and national provisions.

## SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties		
Appearance	Clear liquid.	
Colour	Brownish.	
Odour	Characteristic.	
Odour threshold	No specific test data are available.	
рН	Scientifically unjustified.	
Melting point	-42°C	
Initial boiling point and range	No specific test data are available.	
Flash point	~ 232°C Cleveland open cup.	
Evaporation rate	No specific test data are available.	
Evaporation factor	No specific test data are available.	
Flammability (solid, gas)	No specific test data are available.	
Upper/lower flammability or explosive limits	No specific test data are available.	
Other flammability	No specific test data are available.	
Vapour pressure	No specific test data are available.	
Vapour density	No specific test data are available.	
Relative density	No specific test data are available.	
Bulk density	~ 0,85 g/ml	
Solubility(ies)	Insoluble in water.	

Partition coefficient	No specific test data are available.	
Auto-ignition temperature	No specific test data are available.	
Decomposition Temperature	No specific test data are available.	
Viscosity	12,0 cSt @ 100°C	
Explosive properties	No specific test data are available.	
Explosive under the influence of a flame	No information available.	
Oxidising properties	Not known.	
Comments	Information given is applicable to the product as supplied.	
9.2. Other information		
Other information	No information required.	
Refractive index	No specific test data are available.	
Particle size	No specific test data are available.	
Molecular weight	No specific test data are available.	
Volatility	No specific test data are available.	
Saturation concentration	No specific test data are available.	
Critical temperature	No specific test data are available.	
Volatile organic compound	No specific test data are available.	
SECTION 10: Stability and reactivity		
SECTION 10: Stability and rea	activity	
SECTION 10: Stability and rea		
	Not known.

Aspiration hazard		
Summary	Slight irritation of the respiratory tract may occur, if mists are inhaled.	
Aspiration hazard	May be fatal if swallowed and enters airways.	
Toxicokinetics	No information required.	
General information	No information required.	
Inhalation	No information required.	
Ingestion	No information required.	
Skin contact	No information required.	
Eye contact	No information required.	
Acute and chronic health hazards	No information required.	
Route of exposure	No information required.	
Target organs	No specific target organs known.	
Medical symptoms	No information required.	
Medical considerations	No information required.	
	1-Decene Homopolymer Hydrogenated	
Acute toxicity - oral		
Notes (oral LD₅₀)	LD₅₀ >5000 mg/kg, Oral, Rat	
Acute toxicity - dermal		
Notes (dermal LD₅₀)	LD₅₀ >2000 mg/kg, Dermal, Rabbit	
Acute toxicity - inhalation		
Notes (inhalation LC <sub>50</sub> )	LC50 >5,2 (4h) mg/l, Inhalation, Rat	
Skin corrosion/irritation		
Summary	Basen on the available data, the classification criteria are not met.	
Serious eye damage/irritation	on	
Summary	Based on available data the classification criteria are not met.	
Skin sensitisation		

Skin sensitisation	Did not cause sensitization on laboratory animals. (Supplier information.)
Germ cell mutagenicity	
Summary	Animal testing did not show any mutagenic effects. (Supplier information.)
Carcinogenicity	
Carcinogenicity	Carcinogenicity in humans is not expected. Supplier's information.
Reproductive toxicity	
Summary	Species: Rat Sex: male and female Application Route: oral gavage Dose: 0, 100, 500, 1000 mg/kg Number of exposures: daily Test period: 10 weeks Method: OECD Test Guideline 415 NOAEL Parent: 1.000 mg/kg
Specific target organ toxici	ty - repeated exposure
STOT - repeated exposure	NOEL 6,245 mg/kg, Oral, Rat NOEL 4159,4 mg/kg, Oral, Rat
Aspiration hazard	
Aspiration hazard	Based on available data the classification criteria are not met. Supplier's information.
	Mineral oil (mixture)
Skin sensitisation	
Skin sensitisation	Classification: Not a skin sensitizer. (Read across) (Supplier information)
Specific target organ toxici	ty - single exposure
STOT - single exposure	If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and the upper respiratory tract. (Supplier information)
Aspiration hazard	
Aspiration hazard	Material can be aspirated into the lungs during the act of swallowing or vomiting. This could result in severe injury to the lungs and death. (Supplier information)
	Distillates (petroleum), hydrogenated heavy parafinic
Carcinogenicity	
Carcinogenicity	This product contains mineral oils which are severely refined and not considered carcinogenic. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP 346 test.
Aspiration hazard	
Aspiration hazard	Material can be aspirated into the lungs during the act of swallowing or vomiting. This could result in severe injury to the lungs and death. (Supplier information)
	bis(nonylphenyl)amine
Germ cell mutagenicity	
Genotoxicity - in vitro	This material has not exhibited mutagenic or genotoxic potential in laboratory tests. (Supplier information)
Z	Zinc O,O,O',O'-tetrakis(1,3dimethylbuthyl)bis(fosforodithioat)
- Skin sensitisation	
Skin sensitisation	Classification: Not a skin sensitizer.

## Mineral oil

Acute		
	e toxicity - oral	
Notes	s (oral LD₅∞)	LD₅₀ >5000 mg/kg, Oral, Rat
Acute	e toxicity - dermal	
Notes	s (dermal LD₅₀)	LD₅₀ >2000 mg/kg, Dermal, Rabbit
		Phenol, dodecyl-, branched
Skin	sensitisation	
Skin	sensitisation	Classification: Not a skin sensitizer.
Germ	n cell mutagenicity	
Geno	otoxicity - in vitro	This material has not exhibited mutagenic or genotoxic potential in laboratory tests. (Supplier data)
Repro	oductive toxicity	
Sumr	mary	May damage fertility. (Supplier information)
Spec	ific target organ toxicit	y - single exposure
STOT	T - single exposure	May cause irritation to the mucous membranes and upper respiratory tract.
Spec	ific target organ toxicit	y - repeated exposure
STOT - repeated exposure		This product contains para-dodecylphenol. Rats given high, repeated daily doses of para-dodecylphenol by oral intubation experienced effects on a number of organs including adrenal, thyroid, liver, ovary, testes, bone marrow and blood cell formation.
		2,6-di-tert-butyl-p-cresol
Repro	oductive toxicity	
Repro	oductive toxicity oductive toxicity - lopment	Gestation to pregnant mice 6-13. days after di-tert-butyl-p-cresol up to 800 mg / kg / day, no teratogenic effect was observed. (Supplier information)

12.2. Persistence and degradability			
Persistence	and degradability	Based o	n available data the classification criteria are not met.
Phototransformation No specif		No spec	ific test data are available.
Stability (hydrolysis) No speci		No spec	ific test data are available.
Biodegrada	tion	No spec	ific test data are available.
Biological o	xygen demand	No spec	ific test data are available.
Chemical oxygen demand No specifie		No spec	ific test data are available.
Ecological information on ingredients.			

## Distillates (petroleum), hydrotreated heavy paraffinic baseoil

Persistence and degradability	OECD 301B:2-4 %,28 d ;OECD 301F:31 %,28 d
Phototransformation	Inconclusive data.
Stability (hydrolysis)	Inconclusive data.
Biodegradation	Inconclusive data.
Biological oxygen demand	Inconclusive data.
Chemical oxygen demand	Inconclusive data.
	1-Decene Homopolymer Hydrogenated
Biodegradation	Not expected to be readily biodegradable.
	Mineral oil (mixture)
Biodegradation	Carbon dioxide formation - 31: 28 day, OECD TG 301B
	Distillates (petroleum), hydrogenated heavy parafinic
Biodegradation	Oxygen discharge - 31 %: 28 day, OECD TG 301 F
	bis(nonylphenyl)amine
Biodegradation	Carbon dioxide formation - 0 %: 28 day, OECD TG 301B
Z	inc O,O,O',O'-tetrakis(1,3dimethylbuthyl)bis(fosforodithioat)
Biodegradation	Carbon dioxide formation - 1,5 %: 28 day, OECD TG 301B
	Mineral oil
Biodegradation	Carbon dioxide formation - 31 %: 28 day, OECD TG 301B
	Phenol, dodecyl-, branched
Biodegradation	Miscellaneous - 10 %: 56 day Carbon dioxide formation - 25 %: 28 day, OECD TG 301B
	2,6-di-tert-butyl-p-cresol
Biodegradation	Miscellaneous - 30 %: 14 day, OECD TG 302 C Oxygen discharge - 4,5 %: 28 day, OECD TG 301 C
12.3. Bioaccumulative potential	
Bioaccumulative potential No spec	ific test data are available.
Partition coefficient No spec	ific test data are available.
Ecological information on ingredients.	
<u>[</u>	Distillates (petroleum), hydrotreated heavy paraffinic baseoil
Bioaccumulative potential	Inconclusive data.
Partition coefficient	Inconclusive data.

#### 1-Decene Homopolymer Hydrogenated

Bioaccumulative potential	Bioaccumulation is unlikely.

#### bis(nonylphenyl)amine

Bioaccumulative potential BCF: 1584,89, Measured

#### Zinc O,O,O',O'-tetrakis(1,3dimethylbuthyl)bis(fosforodithioat)

Partition coefficient log Kow: °C 2,21 20

#### Phenol, dodecyl-, branched

Bioaccumulative potential	BCF: 794,33, Measured
Partition coefficient	log Kow: 7,14

2,6-di-tert-butyl-p-cresol

Partition coe	efficient log Kow: 5,03
12.4. Mobility in soil	
Mobility	Based on available data the classification criteria are not
Adsorption/desorption coefficient	No specific test data are available.
Henry's law constant	No specific test data are available.
Surface tension	No specific test data are available.

#### Ecological information on ingredients.

#### Distillates (petroleum), hydrotreated heavy paraffinic baseoil

met.

Mobility	No data available.
Adsorption/desorption coefficient	Inconclusive data.
Henry's law constant	Inconclusive data.
Surface tension	Inconclusive data.

### 12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB Not relevant. assessment

#### Ecological information on ingredients.

#### Distillates (petroleum), hydrotreated heavy paraffinic baseoil

Results of PBT and vPvB Not relevant. assessment

#### 12.6. Other adverse effects

#### Other adverse effects Not known.

Ecological information on ingredients.

## Distillates (petroleum), hydrotreated heavy paraffinic baseoil

Other advers	<b>se effects</b> This product contains components that have a harmful effect on the aquatic environment.Do not allow to enter into soil, rivers or sewers.
SECTION 13: Disposal co	nsiderations
13.1. Waste treatment me	thods
General information	The generation of waste should be minimised or avoided wherever possible. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents.
Disposal methods	Collect and place in suitable waste disposal containers and seal securely. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
Waste class	The waste code classification is to be carried out according to the European Waste Catalogue (EWC).
SECTION 14: Transport in	nformation
General	Not regulated.
14.1. UN number	
Not applicable.	
14.2. UN proper shipping	name
Not applicable.	
14.3. Transport hazard cla	<u>ass(es)</u>
Not regulated.	
14.4. Packing group	
Not applicable.	
14.5. Environmental hazar	rds
Environmentally hazardou Not applicable.	is substance/marine pollutant
14.6. Special precautions	for user
Not applicable.	
14.7. Transport in bulk acc	cording to Annex II of MARPOL and the IBC Code
Transport in bulk accordin Annex II of MARPOL 73/7 and the IBC Code	-
SECTION 15: Regulatory	information
15.1. Safety, health and e	nvironmental regulations/legislation specific for the substance or mixture
National regulations	T. C. Regulation on the Classification, Labeling and Packaging of Substances and Mixtures No. 28848, dated 11 December 2013, by the Ministry of Environment and Urbanization. According to Regulation (EC) No 1907/2006, Annex II, as amended.
