

## SAFETY DATA SHEET COMPRESSOR OIL SP 68

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name COMPRESSOR OIL SP 68

Product number 22172

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Air and cooling compressor oil.

Uses advised against This product must not be used outside of the practices recommended in Section 1 without prior advice from the supplier.

#### 1.3. Details of the supplier of the safety data sheet

Supplier PETROL OFİSİ A.Ş.  
Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar/ İstanbul  
Tel: +90 850 339 1919  
Fax: +90 216 275 3854  
madeniyag@petrolofisi.com.tr

Contact person Customer Services: madeniyag@petrolofisi.com.tr

Manufacturer PETROL OFİSİ A.Ş.  
Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar/ İstanbul  
Tel: +90 850 339 1919  
Fax: +90 216 275 3854  
madeniyag@petrolofisi.com.tr

#### 1.4. Emergency telephone number

Emergency telephone Madeni Yağ Customer Services: 0850 339 1919 (working hours)

National emergency telephone number National Poison Consultance Center: 114 Emergency Medical Services: 112

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification (EC 1272/2008)

Physical hazards Not Classified

Health hazards Not Classified

Environmental hazards Not Classified

#### 2.2. Label elements

Hazard statements EUH208 Contains Aryl amine. May produce an allergic reaction.

Precautionary statements P401 Store in accordance with international regulations.

#### 2.3. Other hazards

### SECTION 3: Composition/information on ingredients

## COMPRESSOR OIL SP 68

### 3.2. Mixtures

<b>Petroleum distillates</b>		<b>&lt;1%</b>
CAS number: —		
<b>Classification</b>		
Asp. Tox. 1 - H304		
Aquatic Chronic 2 - H411		
<b>Aryl amine</b>		<b>&lt;1%</b>
CAS number: —		
M factor (Acute) = 1		M factor (Chronic) = 1
<b>Classification</b>		
Acute Tox. 4 - H302		
Skin Sens. 1 - H317		
Aquatic Acute 1 - H400		
Aquatic Chronic 1 - H410		
<b>Aryl triazol alkyl amin</b>		<b>&lt;1%</b>
CAS number: —		
<b>Classification</b>		
Acute Tox. 4 - H302		
Acute Tox. 4 - H312		
Skin Irrit. 2 - H315		
Skin Sens. 1B - H317		
Aquatic Chronic 2 - H411		

The full text for all hazard statements is displayed in Section 16.

**Composition comments**      The DMSO contents of some substances are classified by the manufacturer as <3% according to IP 346.

**Ingredient notes**      See Section 8 for occupational exposure limits.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

<b>General information</b>	Personal protective equipment should be used to minimize first-aid treatment.
<b>Inhalation</b>	Move affected person to fresh air at once. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. If in doubt, get medical attention promptly.
<b>Ingestion</b>	Rinse mouth thoroughly with water. Stop if the affected person feels sick as vomiting may be dangerous. Never give anything by mouth to an unconscious person. If in doubt, get medical attention promptly.
<b>Skin contact</b>	Take off immediately all contaminated clothing and wash it before reuse. Wash skin thoroughly with soap and water or use an approved skin cleanser. Get medical attention if irritation persists after washing.

## COMPRESSOR OIL SP 68

<b>Eye contact</b>	Immediately flush eyes with plenty of water for at least 15 minutes. Occasionally open and close eyelids during the wash process. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms are severe or persist after washing.
<b>Protection of first aiders</b>	First aid personnel should wear appropriate protective equipment during any rescue. It may be dangerous for first aid personnel to carry out mouth-to-mouth resuscitation.

### **4.2. Most important symptoms and effects, both acute and delayed**

<b>General information</b>	See Section 11 for additional information on health hazards.
<b>Inhalation</b>	No specific symptoms known.
<b>Ingestion</b>	No specific symptoms known.
<b>Skin contact</b>	May cause skin sensitisation or allergic reactions in sensitive individuals.
<b>Eye contact</b>	No specific symptoms known.

### **4.3. Indication of any immediate medical attention and special treatment needed**

<b>Notes for the doctor</b>	No specific treatment. Treat symptomatically.
<b>Specific treatments</b>	Treat symptomatically.

## **SECTION 5: Firefighting measures**

### **5.1. Extinguishing media**

<b>Suitable extinguishing media</b>	Water spray, foam, dry powder or carbon dioxide.
<b>Unsuitable extinguishing media</b>	Do not use water jet as an extinguisher, as this will spread the fire.

### **5.2. Special hazards arising from the substance or mixture**

<b>Specific hazards</b>	Not known. Cool closed containers exposed to fire with water spray.
<b>Hazardous combustion products</b>	Thermal decomposition or combustion products may include the following substances: Carbon dioxide (CO <sub>2</sub> ). Carbon monoxide (CO). Smoke and irritating vapours as products of incomplete combustion.

### **5.3. Advice for firefighters**

<b>Protective actions during firefighting</b>	No action shall be taken without appropriate training or involving any personal risk. Use water to keep fire exposed containers cool and disperse vapours. Dispose of fire debris and contaminated fire-fighting water in accordance with applicable legal legislation.
<b>Special protective equipment for firefighters</b>	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Use special protective clothing.

## **SECTION 6: Accidental release measures**

### **6.1. Personal precautions, protective equipment and emergency procedures**

<b>Personal precautions</b>	Ensure procedures and training for emergency decontamination and disposal are in place. No smoking, sparks, flames or other sources of ignition near spillage. Do not touch or walk into spilled material.
<b>For non-emergency personnel</b>	Necessary precautions should be taken to ensure that non-educated personnel do not intervene.

## COMPRESSOR OIL SP 68

**For emergency responders** Notification: In case of spillage, notify the local authorities as appropriate or as necessary. Wear protective clothing as shown in section 8 of this safety data sheet. Stop the leakage source if it can be done without risk. Limit spillage to prevent further contamination of soil, surface or ground water. Remove any spilled material as soon as possible by following the precautions in the section Exposure Controls / Personal Protection. Use suitable techniques such as non-flammable absorbent materials or pumping. When possible or appropriate, remove the contaminated soil from the area. Place contaminated products in disposable boxes and dispose of in accordance with regulations. If a heated material is spilled, allow it to cool before handling with disposal methods.

### 6.2. Environmental precautions

**Environmental precautions** Apply protective methods to prevent spilled material from entering into water sources, water channels, sewers and soil. Environmental manager must be informed of all major spillages.

### 6.3. Methods and material for containment and cleaning up

**Methods for cleaning up** Large spill : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water sources, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Small spill : Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

### 6.4. Reference to other sections

**Reference to other sections** For personal protection, see Section 8. See Section 1 for emergency contact information. For waste disposal, see Section 13. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**Usage precautions** For personal protection, see Section 8. Do not ingest. Avoid contact with skin, eyes and clothing. Do not breathe gas, fume, vapours or spray. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Product residues retained in emptied containers can be hazardous. Do not reuse empty containers. Take precautionary measures against static discharge. Do not eat, drink or smoke when using this product. This product is not to be used under conditions of poor ventilation. Keep away from heat, sparks and open flame. Container must be kept tightly closed when not in use.

**Advice on general occupational hygiene** Persons susceptible to allergic reactions should not handle this product. Do not eat, drink or smoke when using this product. Eye wash facilities and emergency shower must be available when handling this product. Remove contaminated clothing and protective equipment before entering eating areas. Protect from sunlight.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage precautions** Store in accordance with national regulations. Store in a well-ventilated appropriate place. Store away from incompatible materials (see Section 10). The container is not designed to contain pressure. Do not apply pressure to discharge the container otherwise it may rupture with explosive force. Empty containers may contain product residue and it can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind or expose such containers to heat, flame, sparks, static electricity or other sources of ignition. Containers should be drained completely and disposed of properly. Store in a demarcated bunded area to prevent release to drains and/or watercourses. Store in accordance with national regulations.

## COMPRESSOR OIL SP 68

**Storage class** Not applicable.

### 7.3. Specific end use(s)

**Specific end use(s)** The identified uses for this product are detailed in Section 1.2.

**Usage description** The product must be used as specified in the data sheet.

## SECTION 8: Exposure controls/Personal protection

### 8.1. Control parameters

#### Occupational exposure limits

There is no available data.

**Ingredient comments** If this product contains a component with exclusion limits, to determine the effectiveness of ventilation and other control measures; and / or the necessity of the use of respiratory protective devices, the working environment or biological measurement and monitoring of employees may be required. The European Standard EN 689 and the relevant national guidelines should be taken as reference for the detection methods for assessing exposure to inhalation of chemicals of hazardous substances.

**Biological limit values** There is no available data.

**DNEL** There is no available data.

**DMEL** There is no available data.

**PNEC** There is no available data.

### lubricating oils (petroleum), C20-50, hydrotreated neutral oil based (CAS: 72623-87-1)

**DNEL** TWA (sis): 5 mg/m<sup>3</sup> , STEL (sis): 10 mg/m<sup>3</sup> , TWAEV (sis): 5 mg/m<sup>3</sup> , STEV (sis): 10 mg/m<sup>3</sup> , TWA (solunabilir fraksiyon): 5 mg/m<sup>3</sup>

### 8.2. Exposure controls

#### Protective equipment

#### Appropriate engineering controls

When determining engineering controls and when choosing personal protection equipment, consider the possible risks of this substance (see Section 2), appropriate exposure limits, business activities and other substances in the workplace. If engineering controls and work practices are not sufficient to prevent exposure to harmful levels of this substance, the use of personal protective equipment as described in this section is recommended.

#### Personal protection

Keep away from foodstuffs, beverages and foods. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Store protective clothing separately. Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

#### Eye/face protection

Wear chemical splash goggles.

#### Hand protection

For users with sensitive skin, it is recommended that suitable protective gloves are worn.

#### Other skin and body protection

Avoid contact with skin. Wear apron or protective clothing in case of contact.

## COMPRESSOR OIL SP 68

<b>Hygiene measures</b>	Persons susceptible to allergic reactions should not handle this product. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. No specific hygiene procedures recommended but good personal hygiene practices should always be observed when working with chemical products.
<b>Respiratory protection</b>	Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible.
<b>Thermal hazards</b>	If there is a risk of contact with hot product, all protective equipment worn should be suitable for use with high temperatures.
<b>Environmental exposure controls</b>	Store in a demarcated bunded area to prevent release to drains and/or watercourses. Keep container tightly sealed when not in use. Residues and empty containers should be taken care of as hazardous waste according to local and national provisions.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

<b>Appearance</b>	Clear liquid.
<b>Colour</b>	Yellowish.
<b>Odour</b>	Odorless or slightly petroleum oil
<b>Odour threshold</b>	No information available.
<b>pH</b>	Not applicable.
<b>Melting point</b>	Not applicable.
<b>Initial boiling point and range</b>	No information available.
<b>Flash point</b>	252°C Cleveland open cup.
<b>Evaporation rate</b>	No information available.
<b>Evaporation factor</b>	No information available.
<b>Flammability (solid, gas)</b>	No information available.
<b>Upper/lower flammability or explosive limits</b>	No information available.
<b>Other flammability</b>	No information available.
<b>Vapour pressure</b>	No information available.
<b>Vapour density</b>	No information available.
<b>Relative density</b>	No information available.
<b>Bulk density</b>	No information available.
<b>Solubility(ies)</b>	Insoluble in water.
<b>Partition coefficient</b>	No information available.
<b>Auto-ignition temperature</b>	No information available.
<b>Decomposition Temperature</b>	No information available.
<b>Viscosity</b>	61,2-74,8 cSt @ 40°C
<b>Explosive properties</b>	No information available.
<b>Explosive under the influence of a flame</b>	No suitable data is available.

## COMPRESSOR OIL SP 68

<b>Oxidising properties</b>	No data available.
<b>Comments</b>	Information given is applicable to the product as supplied.
<b><u>9.2. Other information</u></b>	
<b>Other information</b>	No information required.
<b>Refractive index</b>	No information available.
<b>Particle size</b>	No information available.
<b>Molecular weight</b>	No information available.
<b>Volatility</b>	No information available.
<b>Saturation concentration</b>	No information available.
<b>Critical temperature</b>	No information available.
<b>Volatile organic compound</b>	No information available.

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

<b>Reactivity</b>	No test data specifically related to reactivity available for this product or its ingredients.
-------------------	--

#### 10.2. Chemical stability

<b>Stability</b>	The product is stable under recommended handling and storage conditions.
------------------	--

#### 10.3. Possibility of hazardous reactions

<b>Possibility of hazardous reactions</b>	No hazardous reaction under normal conditions of storage and use.
---	---

#### 10.4. Conditions to avoid

<b>Conditions to avoid</b>	High temperature, spark and open flames.
----------------------------	--

#### 10.5. Incompatible materials

<b>Materials to avoid</b>	Strong reducing agents. Strong oxidising agents.
---------------------------	--

#### 10.6. Hazardous decomposition products

<b>Hazardous decomposition products</b>	Decomposition products may contain the following materials: Carbon dioxide (CO <sub>2</sub> ). Carbon monoxide (CO).
---	--

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

<b>Toxicological effects</b>	Information given is based on data of the components and of similar products.
------------------------------	---

<b>Other health effects</b>	No relevant information available.
-----------------------------	------------------------------------

#### Acute toxicity - oral

<b>Summary</b>	Based on available data, the classification criteria are not met.
----------------	---

<b>Notes (oral LD<sub>50</sub>)</b>	Mineral oil: LD <sub>50</sub> >5000 mg/kg, Oral, Rat Aryl amine: LD <sub>50</sub> 1625 mg/kg, Oral, Rat Aryl triazole alkyl amine: LD <sub>50</sub> 636 mg/kg, Oral, Rat lubricating oils (petroleum), C20-50, hydrotreated neutral oil-based: LD <sub>50</sub> >5000 mg/kg, Oral, Rat
-------------------------------------	--

#### Acute toxicity - dermal

<b>Summary</b>	Based on the available data, the classification criteria are not met.
----------------	---

## COMPRESSOR OIL SP 68

<b>Notes (dermal LD<sub>50</sub>)</b>	Mineral oil: LD <sub>50</sub> >5000 mg/kg, Dermal, Rabbit Aryl amine: LD <sub>50</sub> >2000 mg/kg, Dermal, Rabbit Aryl triazole alkyl amine: LD <sub>50</sub> 1190 mg/kg, Dermal, Rabbit lubricating oils (petroleum), C20-50, hydrotreated neutral oil-based: LD <sub>50</sub> >2000 mg/kg, Dermal, Rabbit
<b><u>Acute toxicity - inhalation</u></b>	
<b>Summary</b>	Basen on the available data, the classification criteria are not met.
<b>Notes (inhalation LC<sub>50</sub>)</b>	Mineral oil: LC50 >5000 mg/m <sup>3</sup> , Inhalation, Rat lubricating oils (petroleum), C20-50, hydrotreated neutral oil-based: LC50 5,2 mg/l, Inhalation, Rat
<b><u>Skin corrosion/irritation</u></b>	
<b>Summary</b>	Basen on the available data, the classification criteria are not met.
<b>Skin corrosion/irritation</b>	Based on available data the classification criteria are not met.
<b>Animal data</b>	Based on available data the classification criteria are not met.
<b>Human skin model test</b>	Based on available data the classification criteria are not met.
<b>Extreme pH</b>	Based on available data the classification criteria are not met.
<b><u>Serious eye damage/irritation</u></b>	
<b>Summary</b>	Based on available data, the classification criteria are not met.
<b>Serious eye damage/irritation</b>	Based on available data the classification criteria are not met.
<b><u>Respiratory sensitisation</u></b>	
<b>Summary</b>	Based on available data, the classification criteria are not met.
<b>Respiratory sensitisation</b>	Based on available data the classification criteria are not met.
<b><u>Skin sensitisation</u></b>	
<b>Summary</b>	Based on available data the classification criteria are not met.
<b>Skin sensitisation</b>	Based on available data the classification criteria are not met.
<b><u>Germ cell mutagenicity</u></b>	
<b>Summary</b>	Based on available data the classification criteria are not met.
<b>Genotoxicity - in vitro</b>	Based on available data the classification criteria are not met.
<b>Genotoxicity - in vivo</b>	Based on available data the classification criteria are not met.
<b><u>Carcinogenicity</u></b>	
<b>Summary</b>	Based on available data the classification criteria are not met.
<b>Carcinogenicity</b>	Based on available data the classification criteria are not met.
<b>Target organ for carcinogenicity</b>	No specific target organs known.
<b>IARC carcinogenicity</b>	Not listed.
<b>NTP carcinogenicity</b>	Not listed.
<b><u>Reproductive toxicity</u></b>	
<b>Summary</b>	There is no test data indicating that this product has a toxic effect on the reproductive system.
<b>Reproductive toxicity - fertility</b>	Based on available data the classification criteria are not met.
<b>Reproductive toxicity - development</b>	Based on available data the classification criteria are not met.
<b><u>Specific target organ toxicity - single exposure</u></b>	

## COMPRESSOR OIL SP 68

<b>Summary</b>	Based on the available data, the classification criteria are not met.
<b>STOT - single exposure</b>	Based on available data the classification criteria are not met.
<b>Target organs</b>	No specific target organs known.
<b><u>Specific target organ toxicity - repeated exposure</u></b>	
<b>Summary</b>	Based on the available data, the classification criteria are not met.
<b>STOT - repeated exposure</b>	Based on available data the classification criteria are not met.
<b>Target organs</b>	No specific target organs known.
<b><u>Aspiration hazard</u></b>	
<b>Summary</b>	Based on available data, the classification criteria are not met.
<b>Aspiration hazard</b>	Not anticipated to present an aspiration hazard, based on chemical structure. Product includes a compound which has aspiration toxicity.
<b>Toxicokinetics</b>	No information is required.
<b>General information</b>	Information given is based on data of the components and of similar products.
<b>Inhalation</b>	There is no available data.
<b>Ingestion</b>	There is no available data.
<b>Skin contact</b>	There is no available data.
<b>Eye contact</b>	There is no available data.
<b>Acute and chronic health hazards</b>	There is not enough data.
<b>Route of exposure</b>	There is no available data.
<b>Target organs</b>	No specific target organs known.
<b>Medical symptoms</b>	No specific tes data are available.
<b>Medical considerations</b>	No specific tes data are available.

### SECTION 12: Ecological information

<b>Ecotoxicity</b>	The product contains a substance which is very toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.
--------------------	---

#### 12.1. Toxicity

<b>Toxicity</b>	Based on available data the classification criteria are not met.
-----------------	--

#### Acute aquatic toxicity

<b>Summary</b>	Based on available data the classification criteria are not met.
----------------	--

<b>Acute toxicity - fish</b>	Aryl amine: LC <sub>50</sub> , 96 hour: 0,44 mg/l, Fish Aryl triazole alkyl amine: LC <sub>50</sub> , 96 hour: 1,3 ppm, Fish
<b>Acute toxicity - aquatic invertebrates</b>	Aryl amine: EC <sub>50</sub> , 48 hour: 0,3 mg/l, Daphnia magna
<b>Acute toxicity - aquatic plants</b>	Aryl amine: EC <sub>50</sub> , 72 hour: >0,25 mg/l, Algae

## COMPRESSOR OIL SP 68

**Acute toxicity - microorganisms** No information required.

**Acute toxicity - terrestrial** No information required.

### Chronic aquatic toxicity

**Summary** Based on available information, the classification criteria are not met.

**Chronic toxicity - fish early life stage** No information required.

**Short term toxicity - embryo and sac fry stages** No information required.

**Chronic toxicity - aquatic invertebrates** No information required.

**Toxicity to soil** No information required.

**Toxicity to terrestrial plants** No information required.

### 12.2. Persistence and degradability

**Persistence and degradability** Based on available data the classification criteria are not met.

**Phototransformation** Based on available data the classification criteria are not met.

**Stability (hydrolysis)** Based on available data the classification criteria are not met.

**Biodegradation** Based on available data the classification criteria are not met.

**Biological oxygen demand** Based on available data the classification criteria are not met.

**Chemical oxygen demand** Based on available data the classification criteria are not met.

### 12.3. Bioaccumulative potential

**Bioaccumulative potential** Based on available data the classification criteria are not met.

**Partition coefficient** No information available.

### 12.4. Mobility in soil

**Mobility** No information required.

**Adsorption/desorption coefficient** No information required.

**Henry's law constant** No information required.

**Surface tension** No information required.

### 12.5. Results of PBT and vPvB assessment

**Results of PBT and vPvB assessment** Not applicable.

### 12.6. Other adverse effects

**Other adverse effects** This product contains components that have a harmful effect on the aquatic environment. Do not allow to enter into soil, rivers or sewers.

## **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

## COMPRESSOR OIL SP 68

<b>General information</b>	The generation of waste should be minimised or avoided wherever possible. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents.
<b>Disposal methods</b>	Absorb in vermiculite, dry sand or earth and place into containers. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
<b>Waste class</b>	The waste code classification is to be carried out according to the European Waste Catalogue (EWC).

### SECTION 14: Transport information

<b>General</b>	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
----------------	--

#### 14.1. UN number

Not applicable.

#### 14.2. UN proper shipping name

Not applicable.

#### 14.3. Transport hazard class(es)

No transport warning sign required.

#### 14.4. Packing group

Not applicable.

#### 14.5. Environmental hazards

**Environmentally hazardous substance/marine pollutant**

No.

#### 14.6. Special precautions for user

Not applicable.

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

**Transport in bulk according to** Not applicable.

**Annex II of MARPOL 73/78**

**and the IBC Code**

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

<b>National regulations</b>	According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010 T. C. Environment and urban ministry, implementing Regulation on the Classification, Labeling and Packaging of Substances and Mixtures, No. 28848, dated December 11, 2013
<b>EU legislation</b>	<a href="https://echa.europa.eu">https://echa.europa.eu</a>
<b>Guidance</b>	Safety Data Sheets for Substances and Preparations.
<b>Health and environmental listings</b>	Hazardous ingredients are listed.

#### 15.2. Chemical safety assessment

### SECTION 16: Other information

## COMPRESSOR OIL SP 68

### Abbreviations and acronyms used in the safety data sheet

E.U. : European union  
DMSO: Dimethyl sulfoxide  
KKE: Personal protective equipment  
STEL: Short term exposure limit  
T.C. : Republic of Turkey  
TWA: Workplace exposure limits  
UZEM: National Poison Information Center  
ATE: Acute Toxicity Estimate.  
ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.  
CAS: Chemical Abstracts Service.  
DNEL: Derived No Effect Level.  
IATA: International Air Transport Association.  
IMDG: International Maritime Dangerous Goods.  
LC<sub>50</sub>: Lethal Concentration to 50 % of a test population.  
LD<sub>50</sub>: Lethal Dose to 50% of a test population (Median Lethal Dose).  
PBT: Persistent, Bioaccumulative and Toxic substance.  
REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006.  
vPvB: Very Persistent and Very Bioaccumulative.  
EC<sub>50</sub>: 50% of maximal Effective Concentration.

### Classification abbreviations and acronyms

Asp. Tox. = Aspiration hazard  
Aquatic Chronic = Hazardous to the aquatic environment (chronic)  
Acute Tox. = Acute toxicity  
Skin Sens. = Skin sensitisation  
Aquatic Acute = Hazardous to the aquatic environment (acute)  
Skin Corr. = Skin corrosion

### General information

Only trained personnel should use this material. This document contains important information to ensure the safe storage, handling and use of this product. The information in this document should be brought to the attention of the person in your organisation responsible for advising on safety matters. Uses and Restrictions : This product must not be used in applications other than those recommended in Section 1, without first seeking the advice of the supplier. This product is not to be used as a solvent or cleaning agent; for lighting or brightening fires; as a skin cleanser. MSDS Distribution : The information in this document should be made available to all who may handle the product. Disclaimer : This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.

### Key literature references and sources for data

This SDS is prepared based on the information received from raw material suppliers.

### Classification procedures according to Regulation (EC) 1272/2008

EUH208: Calculation method.

### Training advice

Untrained personnel should not use.

### Revision comments

This is the first issue.
